

# Basic's of LaTeX

Michael D. Allred

August 30, 2021

## The very basics

This is some text! This text is on the same line as the first.

This is a new paragraph. You can do bold, italic and underline in LaTeX. **This is bold.** *This is italic.* This is underlined. ***This is all three at once.*** If you want to do a quote, you can use two tic marks to open the quote. “This is a quote.”

“LaTeX is great and everyone should use it (Allred, 2021).”
